Correction to January 14, 2005 Information Disclosure

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

Attached is a *corrected* substitute form PTO-1449A (1 sheet patent documents) which is intended to *replace* the form PTO-1449A filed in the case on January 14, 2005. In particular, the reference *Use of explosives for boiler deslagging gains acceptance* Article in "Power," McGraw Hill, *Special Report Nuclear Power* was incorrectly listed as a 1996 reference when in fact it is a 1998 reference. *As such, applicants' priority date precedes this reference.*

The discussion of this reference is hereby also corrected, as follows:

"Use of explosives for boiler deslagging gains acceptance" Article in "Power," McGraw Hill, Special Report Nuclear Power, März 1998, pages 49-51

Applicants' priority date precedes this reference, which in any event does not disclose or suggest using a cooled explosive along the lines of applicants' invention, nor would such cooling have been required to perform what is described in this article. It is also not disclosed or suggested that a tubular device with an explosive at its end is freely moved to a desired position and the explosive then detonated.

Very truly yours,

Jay R. Yablon  
Registration # 30604
